

## WK01AS01 - Personal Site

---

In this assignment, you're to use **only** HTML to create a simple portfolio(CV) website. Your website should contain elements like **lists**, **images** and **links** to your social media handles. Also, use an HTML table for the general layout of the website. You are permitted to use some table attributes like *cellpadding*, *cellspacing*, etc. to change how the table is displayed. Other than that, no style rules should be used.
